MERN-Stack Web Developer (React · Node.js)

SUMMARY

Full-Stack Web Developer with 2+ years of experience building scalable web applications using React, Node.js, Express, MongoDB, and TailwindCSS. Experienced in OTT platforms, e-commerce systems, reusable UI components, and secure backend APIs.

EXPERIENCE

Frontend Developer — ETV WIN (Apr 2023 – Apr 2024)

- Built high-performance OTT UI features using React & TailwindCSS
- Created reusable components for homepage, search, categories & player
- Integrated frontend with authentication & subscription APIs
- Optimized video player UI with lazy loading & performance tuning

Full-Stack Developer — Freelance (Jan 2025 – Present)

- Built full-stack apps using React, Node.js, MongoDB & Prisma
- Implemented JWT authentication, CRUD APIs, dashboards & image uploads
- Integrated Stripe & PayPal payment workflows
- Deployed apps on Vercel, Netlify, firebase

PROJECTS

- MERN Auth System – Secure JWT login & protected dashboards
- E-commerce App – Payments, cart, filters & wishlist
- OTT Features Demo – Custom video player, search & categories

EDUCATION

B.Tech – Electronics & Communication Engineering (JNTUK)
Diploma – Electronics & Communication Engineering
(Anaparthi)
